

# MDF

## Fluted Panel

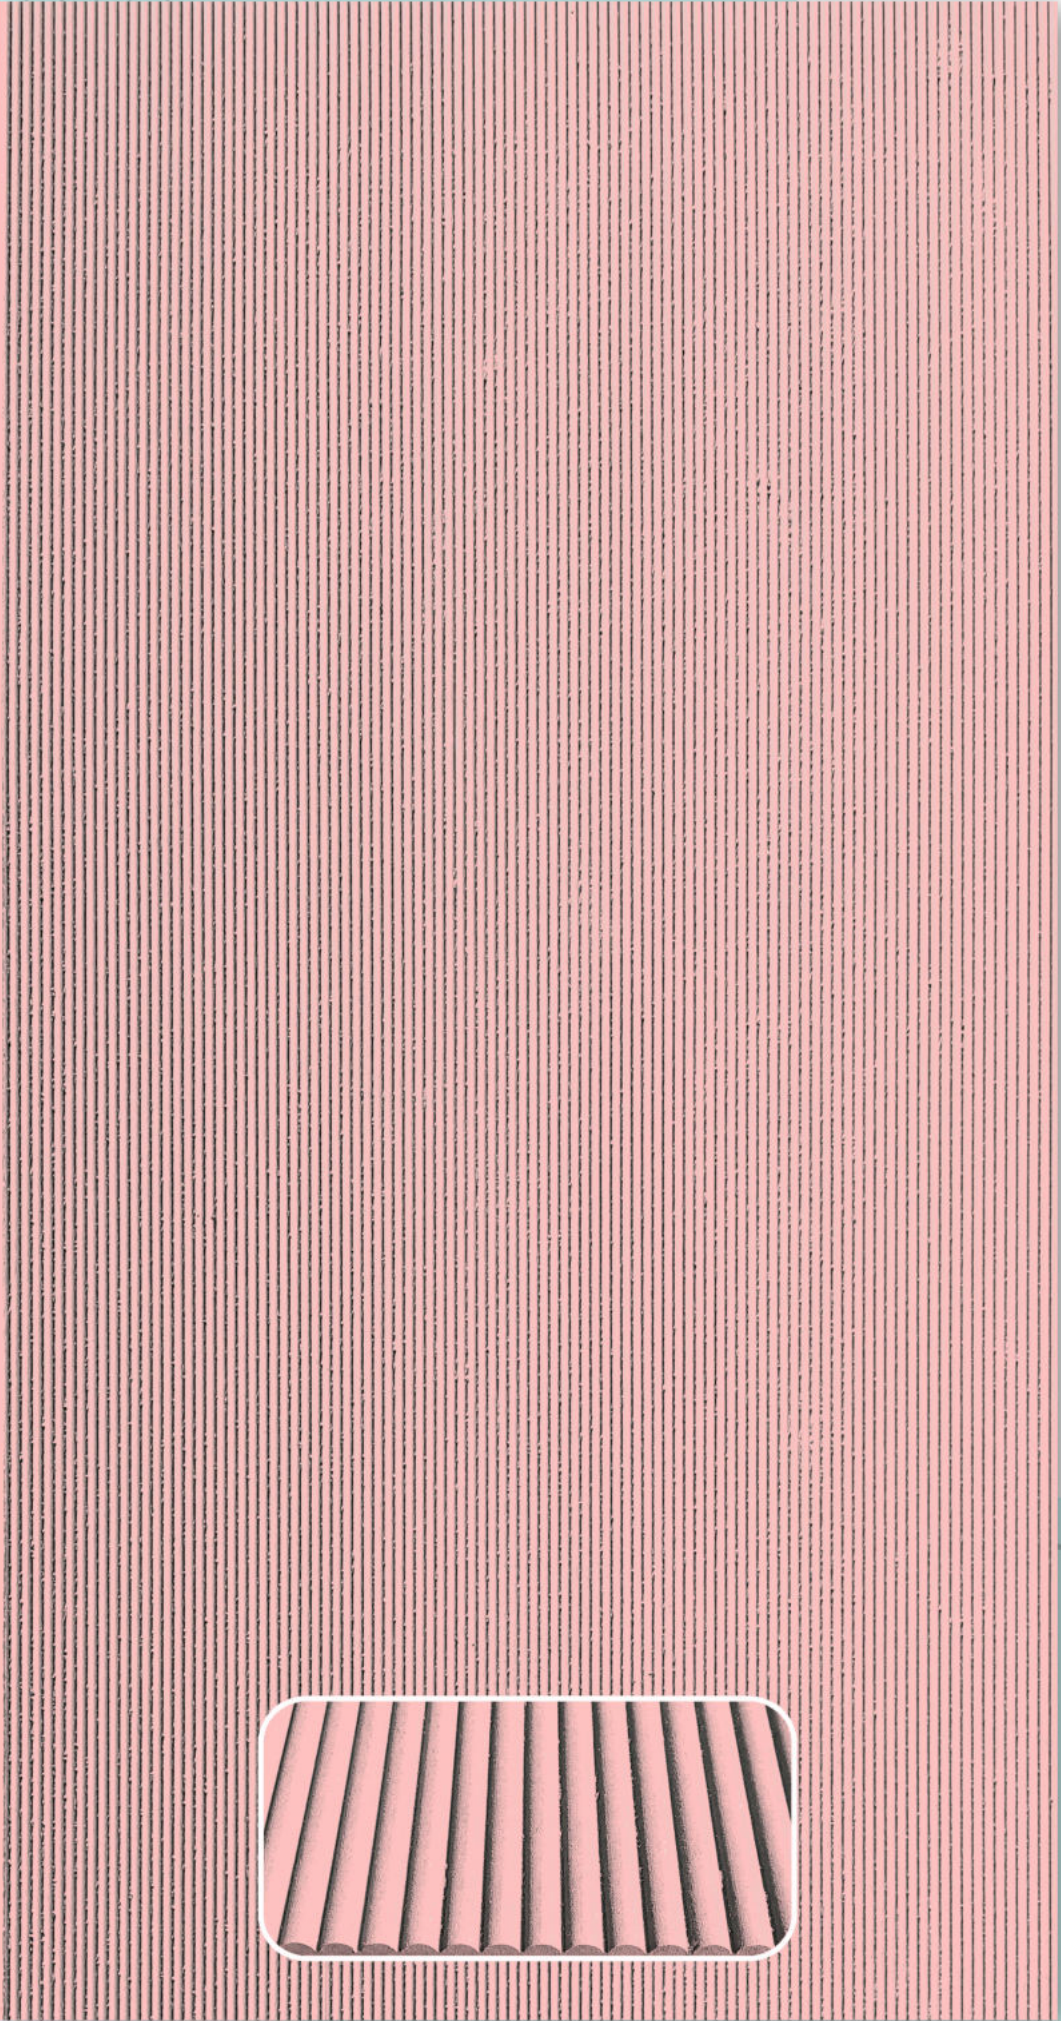

Sterlina Design's MDF premium fluted panels can be used for interior wall and ceilings in hotel, homes, office, hospital, education institutes, club etc. Medium Density Fiberboard (MDF) is an engineered wood product composed of wood fiber extracted from chips and pulped wood waste, formed by glue under immense pressure and heat. When it comes to engineered wood, HDF is a step above MDF and plywood.

**Size** - 8' x 4'

**Thickness** - 8 mm

**Material** - MDF
